

Criterion 7.2

Best Practices of the Institution – Session 2020-21

Best Practice 1: Sustainable Community Engagement

1. Title of the Practice

- Sustainable Community Engagement

2. Objectives of the Practice

- Enhance ecological awareness and social responsibility among students through active community service.

3. The Context

- Addressing environmental concerns and increasing student involvement in sustainable practices were the main challenges.

4. The Practice

- Students participate in environmental initiatives like Clean India missions and nurturing campus greenery, integrating these activities within the NSS framework. Constraints included limited resources and initial student engagement.

5. Evidence of Success

- Increased participation in environmental initiatives, improved local biodiversity, and heightened student environmental consciousness are clear indicators of success.

6. Problems Encountered and Resources Required

- Initial low engagement and limited resources were challenges; ongoing motivation and funding are necessary.

7. Notes (Optional)

- Regular environmental awareness sessions and active involvement in local community projects can enhance effectiveness.

Best Practice 2: Health Awareness and Promotion

1. Title of the Practice

- Health Awareness and Promotion

2. Objectives of the Practice

- To promote physical and mental well-being across campus through structured health initiatives and partnerships.

3. The Context

- The need for improved health consciousness and access to reliable health information and resources drove the implementation of this practice.

4. The Practice

- Organizing health seminars and celebrating International Yoga Day engage students and staff in health practices, with challenges including coordination with health organizations and maintaining consistent participation.

5. Evidence of Success

- High participation rates in health seminars and positive feedback from the community demonstrate the practice's impact on enhancing health awareness.

6. Problems Encountered and Resources Required

- Coordination challenges and the need for consistent funding and expert speakers were significant hurdles.

7. Notes (Optional)

- Continual engagement with health professionals and regular health assessments can increase the long-term impact of the practice.

These practices reflect the institution's commitment to integrating essential life skills and wellness into the educational experience, fostering a well-rounded approach to student development.
