DETAILED DESCRIPTION OF THE EVENT: The seminar on “Transformation of Indian Education focused on a plethora of areas that primarily served as an orientation for NEP 2020. The following thrust areas were highlighted upon:

- Digitalization and Technology Integration:** The proliferation of digital technologies has significantly impacted education in India. Initiatives such as Digital India and the National Education Policy (NEP) have emphasized the integration of technology in teaching and learning processes. This includes the use of digital tools for online learning, virtual classrooms, educational apps, and e-books, making education more accessible and interactive.
- Focus on Holistic Development:** The shift from rote learning to a more holistic approach to education has gained momentum. The NEP emphasizes the importance of holistic development, including cognitive, social, emotional, and physical development, through a flexible and multi-disciplinary curriculum.
- Promotion of Multilingualism:** The NEP advocates for the promotion of multilingualism and the preservation of regional languages in education. This is aimed at ensuring linguistic diversity, cultural preservation, and improved learning outcomes by enabling students to learn in their mother tongue or a local language in the early years of schooling.
- Emphasis on Critical Thinking and Creativity:** There's a growing emphasis on fostering critical thinking, problem-solving skills, creativity, and innovation among students.
