Tree Plantation Festival A Joint Collaboration For A Greener Future

Date:- 15.07.2024

Co-ordinator:- Mrs Manasi Maiti

On July 15th, 2024, a Tree Plantation Festival was organized in a joint collaboration between the National Service Scheme (NSS) unit of our college and Dwijendralal College, Krishnanagar. The event, which took place in the lush surroundings of our college campus, was graced by the esteemed presence of Dr. Banibrata Goswami, Principal of Dwijendralal College, Krishnanagar, and Mrs. Manasi Maiti, assistant professor of Dept. of Philosophy.

The festival began with an introductory speech by Dr. Banibrata Goswami, who eloquently spoke about the importance of tree plantation in mitigating the adverse effects of climate change and enhancing the ecological balance. He emphasized that such collaborative efforts between institutions are vital in fostering a collective consciousness towards environmental preservation.

Mrs. Manasi Maiti followed with an inspiring talk on the role of individuals and communities in safeguarding the environment. She encouraged the students and faculty members to actively participate in tree plantation drives and to adopt sustainable practices in their daily lives.

The NSS unit of our college, in coordination with the students and faculty of Dwijendralal College, led the plantation activity. Over 200 saplings of diverse native species were planted across the college campus, with careful attention to their future growth and maintenance. The participants, which included students, faculty, and local residents, worked together in a spirit of camaraderie and shared responsibility.

The Tree Plantation Festival was not just an event but a movement towards creating a greener and healthier environment. The successful collaboration between the two institutions and the active participation of the NSS unit made it a memorable and impactful occasion.

As the event concluded, the participants took a collective pledge to continue nurturing the planted saplings and to engage in more such environmental initiatives in the future, ensuring that the green legacy is passed on to the coming generations.
