World Environment Day Celebration By NCC Through Tree Plantation Program

Date:-05.06.2024

**Organized by: - NCC Unit of Sudhiranjan Lahiri Mahavidyalaya, Majdia, Nadia
Faculty Co-ordinator:- Mr. Sougata Bhaduri**

On the occasion of World Environment Day, June 5th, 2024, the National Cadet Corps (NCC) organized a tree plantation program in the locality of Majdia, Nadia. The event was coordinated by Mr. Sougata Bhaduri and witnessed enthusiastic participation from NCC cadets, local residents, and volunteers committed to contributing to environmental conservation.

The program commenced with an inaugural speech by Mr. Bhaduri, who highlighted the significance of World Environment Day and the role of tree plantation in combating environmental challenges such as deforestation, air pollution, and climate change. He emphasized the importance of community involvement in preserving the natural ecosystem and encouraged the participants to take an active role in protecting the environment.

Following the speech, the participants proceeded to plant saplings across various identified spots in Majdia. The selection of tree species was done thoughtfully, ensuring that they were suitable for the local climate and soil conditions, thereby promoting biodiversity and enhancing the green cover of the area.

The cadets, equipped with tools and guided by local environmental experts, diligently planted and watered the saplings. The locals also joined in, making the event a collective effort to create a greener and healthier environment for future generations.

This initiative by the NCC, under the able coordination of Mr. Sougata Bhaduri, not only contributed to the environmental sustainability of Majdia but also instilled a sense of responsibility among the youth and the community towards nature conservation. The event concluded with a pledge by all participants to care for the planted trees and to continue engaging in such eco-friendly activities in the future.

The tree plantation program was a resounding success, marking a significant step towards building a greener and more sustainable environment in Majdia, Nadia.
